Keywords: insertion, pyrolysis, structure-property, precipitation

The abstracts for the first panafrican conference on crystallography (PCCr-2016) which will be held in Dschang, Cameroon from 6th – 10th October 2016 should be submitted in the format of this document. They will thus be an A4 page with 1.8 and 2.5 cm margins top and bottom, respectively, and side margins of 2.5cm. The preferred font is Times New Roman, single spaced. The abstract including the title, author affiliations, and any references should not exceed one page: if they do they will not be accepted and will be returned to the author(s) for further editing and resubmission.

Title. Only two lines for the title are strongly recommended.

Authors. Please use superscript letters to indicate author affiliations as shown in the format above. The presenting author's name must be underlined and his/her e-mail address included after the relevant address.

Structure Block/Scheme. A ChemDraw, ISISDraw, ChemWindows or ChemSketch figure that summarizes the compound(s) studied or depicts the work undertaken must be copied and pasted in the frame as indicated in this template. ORTEP or other high-quality diagrams are also acceptable.

The abstracts will be published in black and white, so color is unnecessary. A high-quality (600 dpi) black and white/grayscale JPG or TIFF bitmap image (no bigger than 300 KB, i.e., use compression on export in Corel Draw, for example) is strongly recommended. Figure titles in 10pt font.

Figure 1: Cubic unit cell for $Zn_xNi_{1-x}O$

The first line of each paragraph should **not** be indented and there should be no blank lines between paragraphs. References (if any) should be indicated by numbers in square brackets [1], [2]...etc. in the text and be given at the end of the abstract [1] below the footnote line in 10pt font.
